Profile

A results-driven and detail-oriented IT graduate with hands-on experience in Flutter development, web development, and data entry. Proven ability to deliver real-world applications through internships and freelance roles. Passionate about building scalable digital solutions and contributing to innovative tech teams in Australia. Currently pursuing a Master's in Information Technology (Extension) at Kaplan Business School. I thrive in roles where I can mentor teams, optimize processes, and enhance the overall IT service delivery experience.
